Launch kit & 30-day plan

13 Oct – 11 Nov 2026 · Asia/Dubai

كل مشروع يصبح أداة.

Status: **awaiting KJ approval**. Nothing in this kit is published, scheduled or sent. Every number comes from STORY.md, the website (14 tools) or the KJ VISION audit and strategy of 11 Oct 2026. First client: our own brands.

Contents

1	The grid: the first 9 posts	`grid-preview.png`
2	Launch plan: goal, KPIs, pillars, cadence, calendar, stories, idea bank, templates, voice, angles	`LAUNCH-PLAN.md` · `zkjsystem-calendar-30d.csv`
3	The 9 grid posts (EN + AR) and the pinned set	`posts/`
4	Captions EN + AR	`CAPTIONS.md`
5	Highlight covers and story templates	`highlights/` · `stories/`
6	Reel scripts and shot lists (what KJ records)	`reels/REEL-SCRIPTS.md`
7	Day-0 launch checklist	`LAUNCH-CHECKLIST.md`
8	Approval list	`APPROVALS.md`

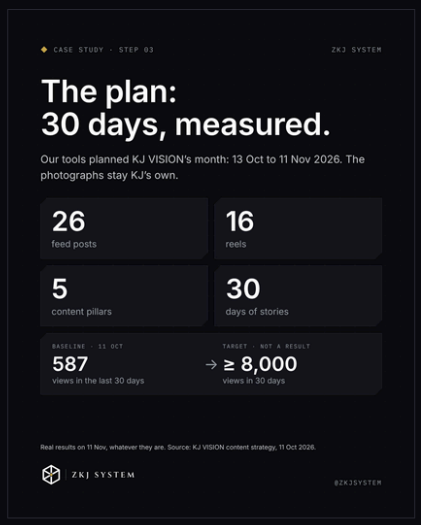

Folder: `/home/user/zkj-system/BRAND/ZKJ-SYSTEM/launch/` · build scripts in `launch/build/` (python3 posts.py · extras.py · grid_preview.py · build_docs.py · pdf.py).

1 · The grid

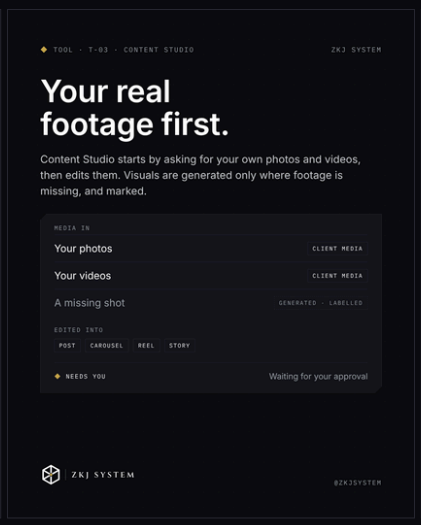

ZKJ SYSTEM · @zkjsystem · LAUNCH GRID

The first 9 posts, as the grid reads on Mon 2 Nov (newest top-left)

Reels (15, 22, 29 Oct) and the pinned set sit between/above these in the live grid. EN slide shown; each post carries its AR slide second.

Launch statement

2 · Launch plan

Method: zkj-system-tools / content-strategy (plan) + content-studio (posts, stories, reels) · Brand kit v1.0 (approved 11 Oct 2026) · Time zone Asia/Dubai
Status: **awaiting KJ approval** (`zkjsystem-202610-launch-strategy` in APPROVALS.md). Approving the plan is not approving each post.

1 · Goal

Primary goal: leads. Turn the launch into the first real conversations with brand owners, measured as enquiries that start on Instagram (WhatsApp, DM or the website form).

Secondary: awareness of ZKJ SYSTEM as "the tools that run KJ's own brands", built on the KJ VISION case study shown honestly, step by step.

The honesty rule for the whole month: **first client: our own brands.** No testimonials, no client names, no results that have not happened. Every number in this kit comes from STORY.md, the website (14 tools) or the KJ VISION audit and strategy of 11 Oct 2026.

2 · KPIs

@zkjsystem is a new account, so there is no baseline yet. Day 0 records it (launch checklist, step 12). Targets are **proposals for KJ to confirm**, kept modest on purpose.

KPI	BASELINE	30-DAY TARGET (PROPOSED)	MEASURED IN
Enquiries that start on Instagram (WhatsApp + DM + form; ask "where did you find us?")	none yet	≥ 3 conversations · ≥ 1 proposal sent	WhatsApp chats (the pre-filled text "I saw ZKJ SYSTEM on Instagram"), DMs, form submissions
Link-in-bio taps (system.zkjverse.com)	none yet	≥ 50	Instagram Insights → external link taps
Profile visits	none yet	record weekly; week 2 ≥ week 1	Insights → profile activity
Saves + shares on the 4 case-study posts	none yet	record; they show whether the case study lands	Insights per post
Median views per reel (4 reels)	none yet	record; reference only: KJ VISION's non-pinned reels had a median of 304 (a different account)	Insights → Reels
Followers	[ask KJ: count on Mon 12 Oct]	+100 net	Profile, every Monday
Consistency	—	14 feed posts + 4 reels on time · stories on ≥ 20 of 30 days	APPROVALS.md + calendar status

Weekly review every Monday (15 min): the numbers above, the best and weakest post, one change for next week. Use insights-report after week 3.

3 · Pillars and mix

PILLAR	SHARE	POSTS	PURPOSE	FORMATS	EXAMPLE
Case study: KJ VISION, step by step	33%	P03, P07, P09, P13, Reel 03, Reel 04	Proof without inventing anything: audit 40/100 → findings → the plan → real results on 11 Nov	carousel, reel, story template 2	P07: Arabic-text reels median 1,708 vs English-text 225
Tool spotlights	17%	P02, P08, P10	One tool per post: what it does, in plain words, from the website copy	carousel, story template 1	P08: Content Studio, real footage first
The story & Mother HQ	17%	P01, P05, Reel 01	Why this exists: ZKJ VERSE from zero, ~20 dashboards in 4 months, Mother HQ live 24/7	post, reel	P05: the public Mother HQ screenshot
How it works / approval-first	22%	Pinned set, P04, P12, Reel 02	Remove the fear: you approve everything, official APIs only, accounts stay yours	carousel, reel (demo dashboard)	Reel 02: tap Approve in the demo dashboard
Arabic statements	11%	P06, P11	Arabic-first lines (the audit showed Arabic text wins on KJ VISION)	single post / 2-slide carousel	P06: «كل مهمة نجحت، أصبحت أداة.»

Mix over 30 days: **18 feed items** = 14 designed posts (pinned set + P01–P13) + 4 reels, plus stories on most days. Hard sell (enquire-led) posts: the pinned set, P04, P12 = 3 of 18, under the 1-in-4 limit. Every other post carries a soft CTA (WhatsApp + link in bio).

EN + AR: each designed post is a 2-slide carousel with the English slide first and the Arabic slide second (P06/P11: Arabic first). The grid shows the first slide; Instagram often re-shows a carousel with its second slide, which gives the Arabic version its own reach. Captions carry both languages.

4 · Cadence and best times (Dubai)

SLOT	DAY	TIME (ASIA/DUBAI)	WHY
Designed post	Tue	13:00 or 20:30	Weekday lunch break / evening for owners and managers
Reel	Thu (Reel 04 on Fri 6 Nov)	20:30	Inside the UAE evening window (20:00–23:30); test Fri/Sat evening with Reel 04
Designed post	Sat	13:00	UAE weekend browsing
Designed post	Mon	20:30	Start-of-week planning mood; case-study steps land here
Stories	most days	09:00 · 13:00 · 21:30	Share every feed post within 10 minutes

Starting points from social-publisher's platform specs for the UAE (12:30–14:30 · 20:00–23:30). After 3 weeks, replace them with Insights → Audience → most active times. Capacity: 3 designed posts a week are design-only (already produced for weeks 1–3); the 4 reels need about 1 hour of screen recording + 1 KJ VISION clip each (reels/REEL-SCRIPTS.md). Fallback if KJ is short of time: keep the pinned set, P01–P09 and Reels 01 and 03; drop P10–P12.

Coordination with @kjvision.zkj (its own plan runs the same 30 days): KJ VISION's case-study carousel (Sat 24 Oct), "planned with my own tools" reel (Fri 6 Nov) and results (Wed 11 Nov) are mirrored here the same day or 1–3 days later, and each account reshares the other in stories. Never more than one ZKJ SYSTEM mention a week on KJ VISION's feed.

5 · 30-day calendar (feed)

Status column: `awaiting approval` = designed and ready for KJ's yes; `draft` = reel to edit or post to produce.

DATE	TIME	ITEM	FORMAT	PILLAR	TITLE	STATUS
Tue 13 Oct	12:45	PIN	carousel	How it works / approval-first	Pinned set: who we are · the case study · how to enquire	awaiting approval
Tue 13 Oct	20:30	P01	carousel	The story & Mother HQ	Launch statement: Every project becomes a tool	awaiting approval
Thu 15 Oct	20:30	R1	reel	The story & Mother HQ	Reel 01 · Every project becomes a tool	draft

Mon 2 Nov	20:30	P09	carousel	Case study: KJ VISION, step by step	Case study 03 · The plan: 30 days, measured	awaiting approval
Tue 3 Nov	13:00	P10	carousel	Tool spotlights	Tool T-06 · WhatsApp AI Assistant (to produce in week 3)	draft
Fri 6 Nov	20:30	R4	reel	Case study: KJ VISION, step by step	Reel 04 · A month planned by our own tools	draft
Sat 7 Nov	13:00	P11	post	Arabic statements	Statement, Arabic first, to produce: الأدوات تُجهّز، وأنت تقرّر.	draft
Mon 9 Nov	20:30	P12	carousel	How it works / approval-first	FAQ carousel: safe for my accounts? ad budget? payment? (to produce)	draft
Wed 11 Nov	20:30	P13	carousel	Case study: KJ VISION, step by step	Case study 04 · 30 days, measured: the real results	draft

Full captions (EN + AR), hashtags and alt text: CAPTIONS.md. Machine-readable master: zkjsystem-calendar-30d.csv (calendar-csv format; UTF-8 with BOM; import into Metricool or Buffer after approval).

6 · Stories plan

DATE	THEME	FRAMES	STICKERS
Tue 13 Oct	Launch	1 launch frame (story template 2 or the P01 image) · 2 share the pinned post · 3 share P01 at 20:40 · 4 story template 3 (question box)	question; link https://system.zkjverse.com
Wed 14 Oct	Highlights set-up	1–5 one frame per highlight cover theme so the 5 highlights can be created (Tools · Case study · Story · How it works · Enquire)	link https://system.zkjverse.com
Thu 15 Oct	Reel 01	1 share Reel 01 · 2 poll “Would you approve every post yourself? Yes / Only the big ones”	poll
Fri 16 Oct	Tool of the day	story template 1 · T-04 Social Media Publisher	link https://system.zkjverse.com
Sat 17 Oct	14 tools	1 share P02 · 2 quiz “How many platforms does the Publisher post to? 3 / 5 / 7” (answer 7)	quiz
Mon 19 Oct	Case study 01	1 share P03 · 2 story template 2 (audit 40/100) · 3 mention @kjvision.zkj	mention
Tue 20 Oct	How it works	1 share P04 · 2 link sticker to WhatsApp	link WhatsApp (wa.me link with pre-filled text)
Wed 21 Oct	Answers	1–3 answers to the 13 Oct question box (only real questions; no personal details)	—
Thu 22 Oct	Reel 02	1 share Reel 02 · 2 link sticker “Try the demo”	link https://system.zkjverse.com/dashboard.html
Fri 23 Oct	Tool of the day	story template 1 · T-02 Brand & Market Audit	link https://system.zkjverse.com
Sat 24 Oct	Mother HQ + KJ VISION	1 share P05 · 2 reshare KJ VISION’s case-study carousel from @kjvision.zkj	mention
Mon 26 Oct	Statement	1 share P06 (Arabic) · 2 slider “How much of your posting would you hand to tools?”	slider
Tue 27 Oct	Case study 02	1 share P07 · 2 poll “On reels: Arabic line or English line?”	poll
Thu 29 Oct	Reel 03	1 share Reel 03 · 2 question box “Want your account audited? Ask here”	question
Sat 31 Oct	Tool of the day	1 share P08 · 2 story template 1 · T-03 Content Studio	link https://system.zkjverse.com
Mon 2 Nov	Case study 03	1 share P09 · 2 story template 2 updated with week-3 numbers from KJ VISION Insights [only if KJ approves]	—
Tue 3 Nov	Tool of the day	1 share P10 · 2 link to WhatsApp	link WhatsApp (wa.me link with pre-filled text)
Thu 5 Nov	Ask	story template 3 (question box)	question
Fri 6 Nov	Reel 04	1 share Reel 04 · 2 reshare KJ VISION’s reel from the same day	mention
Sat 7 Nov	Statement	1 share P11	—
Mon 9 Nov	FAQ	1 share P12 · 2 answers from the question boxes	—
Tue 10 Nov	Countdown	1 countdown “Case study results — Wed 11 Nov 20:30”	countdown

DATE	THEME	FRAMES	STICKERS
Wed 11 Nov	Results	1 share P13 · 2 story template 2 with the real 30-day numbers · 3 link to WhatsApp	link WhatsApp (wa.me link with pre-filled text)

Story templates: stories/ (1 tool of the day · 2 case-study update · 3 ask & enquire). Stickers are added in the app at publish time. Keep text out of the top 250 px and bottom 340 px.

7 · Idea bank (34)

#	PILLAR	IDEA	FORMAT	LANG	MEDIA NEED
1	Case study	Audit score 40/100 with the five sub-scores (P03)	carousel	EN+AR	design only

34	Story	Day in Mother HQ: the alerts KJ approves from his phone (public-safe frames only)	story sequence	EN	needs a public-safe screenshot set

8 · Caption templates

TEMPLATE	STRUCTURE (EN)	البنية (AR)
T1 · Case-study step	Case study, step [n]. [What we did]. [The real number + its source]. [What it means]. [CTA]	دراسة الحالة، الخطوة [n]. [ماذا فعلنا]. [الرقم الحقيقي ومصدره]. [ماذا يعني]. [الدعوة]
T2 · Tool spotlight	Tool T-[nn]: [name]. [One-line job]. [How it works, 2 sentences, from the website]. [Approval line]. Ask about [tool]: WhatsApp · link in bio	الأداة T-[nn]: [الاسم]. [مهمتها في سطر]. [كيف تعمل]. [سطر الموافقة]. اسأل عن [الأداة]: واتساب · الرابط في البايو
T3 · Story	[The line]. [Where it came from, STORY.md]. [Why it matters to a brand owner]. — KJ. [CTA]	[العبارة]. [من أين جاءت]. [لماذا تهم صاحب العلامة]. — KJ. [الدعوة]
T4 · Approval-first	[The fear, in one line]. [How the tools handle it]. Nothing goes out without your approval. [CTA]	[المخاوف في سطر]. [كيف تتعامل معها الأدوات]. لا يُنشر شيء دون موافقتك. [الدعوة]
T5 · Arabic statement	Arabic line first, English line second, one sentence of context, a Save CTA	العبارة العربية أولاً، ثم الإنجليزية، ثم جملة سياق، ثم «احفظ المنشور»

Filled examples for every post: CAPTIONS.md. Unknown facts stay in [brackets] until KJ confirms them.

9 · Voice

Precise · calm · confident. "We" for ZKJ SYSTEM; KJ signs personal notes "— KJ". No emoji, no exclamation marks; ◆ is the only symbol (∵ ⊙ ∴ only in timelines). Numbers as digits. Claude may be named; **never name KJ's employer or any engineering project.**

Say: tool, system, approval, live, built, tested, dashboard, "tested on our own brands first". Never say: revolutionary, game-changer, magic, 10x, guaranteed, viral, "AI does everything for you", invented results or client counts.

Replies: within 24 h, in the commenter's language (Gulf dialect allowed in Arabic replies), one specific detail, then the WhatsApp number for anything commercial. Prices are never posted in comments: KJ

replies personally.

10 · Competitor angles (open space to own)

No competitor research was run for this plan; these are positioning angles, not claims about named accounts.

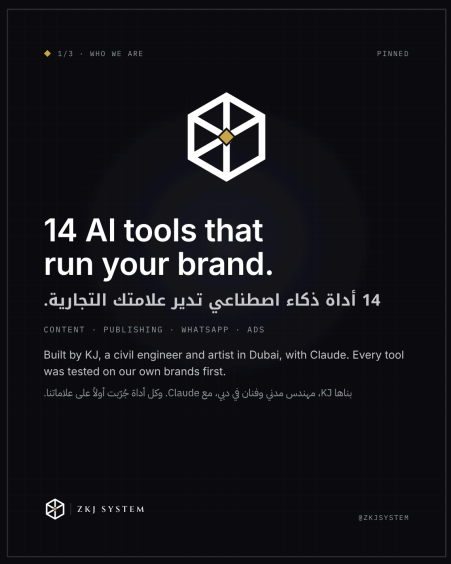

1. **Proof you can check.** Generic AI-agency accounts tend to show promises; we show one real account, its real score and its real result, including a miss if there is one.
2. **Approval as the product.** Lead with "nothing goes out without your approval" and official APIs, where the category often leads with "automate everything".
3. **Arabic first.** Native Arabic lines on every post, written, not translated, for brand owners across the Arab world.
4. **An engineer's tools.** Precise, measured, documented: the brand kit, the audit and the plan are the portfolio.
5. **One live HQ.** Show the system working (Mother HQ, the demo dashboard) instead of describing it.

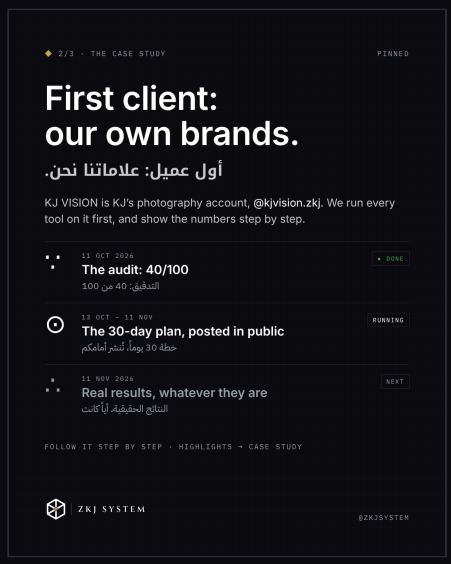

11 · Rules for this launch

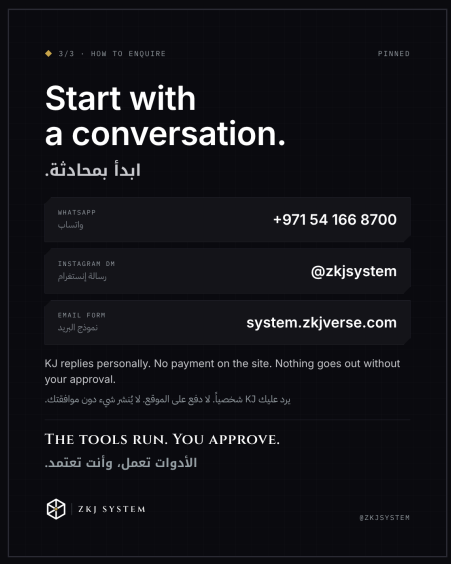

- Publishing only through official APIs or schedulers (Metricool / Buffer). No bots, no unofficial tools, no follow/unfollow automation.
- Nothing is published without KJ's explicit approval of that item and version (APPROVALS.md).
- No invented testimonials, client names or numbers. Case-study numbers only from the KJ VISION audit/strategy files and, on 11 Nov, from KJ VISION Insights.
- Mother HQ: only mother-hq-public.webp; never the original screenshot, never a live screen recording of Mother HQ.
- Gold #C9A84C only on the small ◆. Green/red/blue only as UI status.

P07 · Case study 02 · What the audit found

◆ CASE STUDY · STEP 02 ZKJ SYSTEM

What the audit found.

On KJ VISION, reels with an Arabic line got the most views. So the plan leads with them.

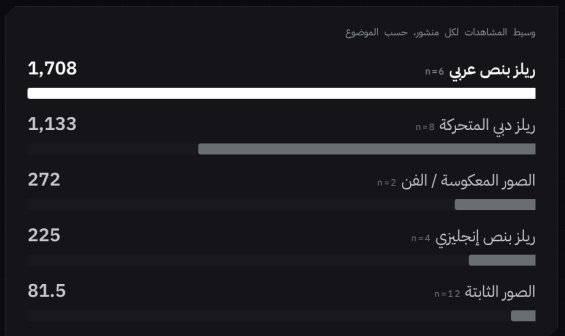

Groups overlap: one reel can be Arabic-text and Dubai motion. Small samples (n = 2–12). Source: KJ VISION brand audit, 11 Oct 2026.

ZKJ SYSTEM @ZKJSYSTEM

ZKJ SYSTEM ◆ دراسة الحالة · الخطوة 02

ماذا وجد التدقيق.

في KJ VISION، حصدت الريلز التي تحمل سطراً عربياً أعلى المشاهدات. لذلك تبدأ الخطة بها.

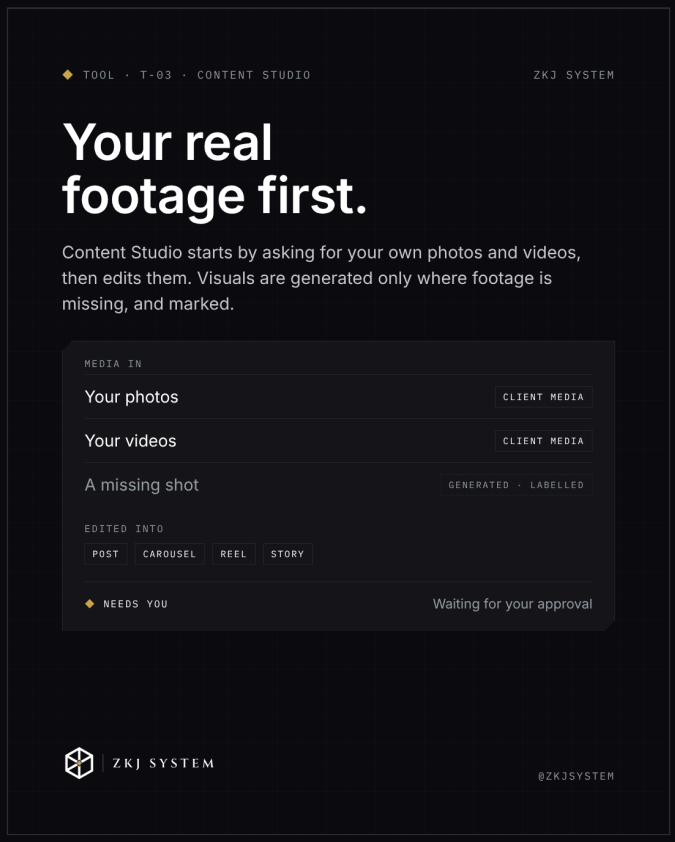

المجموعات متداخلة: قد يكون الريل بنص عربي ومن ريلز دبي معاً. عيّنات صغيرة (n = 2–12). المصدر: تدقيق علامة KJ VISION، 11 أكتوبر 2026.

Alt text Six slides: real screens of the ZKJ SYSTEM website’s Try it feature — Brand Kit with KJ VISION’s logo, Content Studio showing a YouTube Short, the Publisher with one post approved on four platforms, the Dialect Writer — and a final slide with the website address.

5 · Highlights & stories

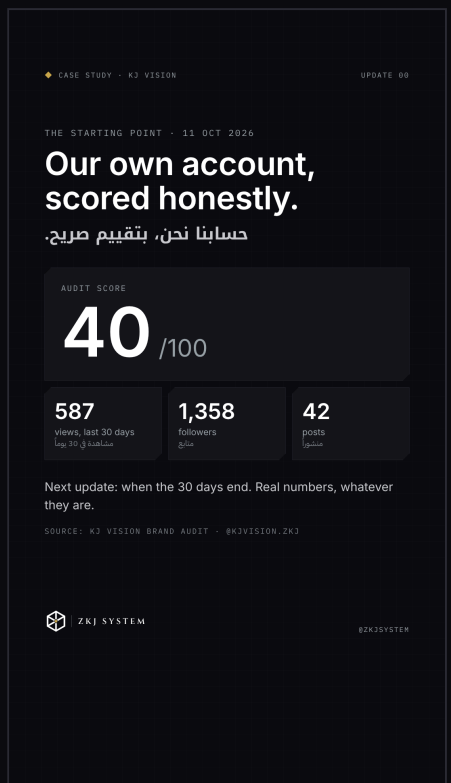

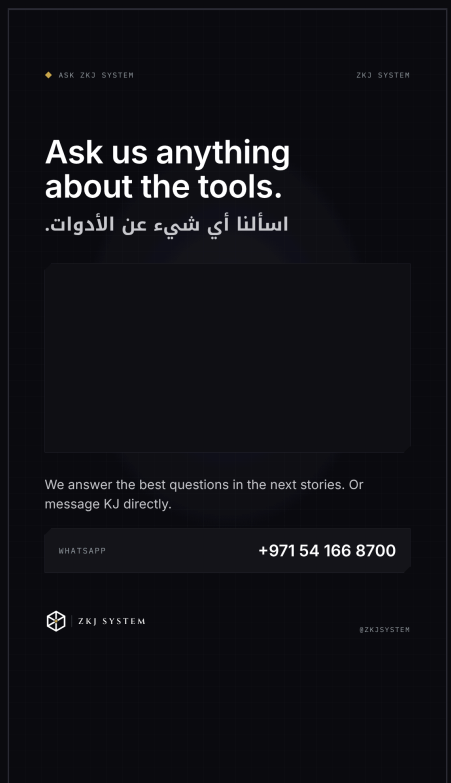

HIGHLIGHTS/ · TOOLS · CASE STUDY · STORY · HOW IT WORKS · ENQUIRE

Story templates

STORIES/ · 1 TOOL OF THE DAY · 2 CASE-STUDY UPDATE · 3 ASK & ENQUIRE

Highlight covers (`../highlights/`, 1080×1920, cube line style)

Instagram shows the centre of the cover in a circle; every icon sits inside the centre 1080×1080 square, inside the kit's chamfered frame. Gold is only the ◆.

ORDER (LEFT → RIGHT)	HIGHLIGHT NAME	COVER FILE	WHAT GOES IN IT
1	Tools	highlight-tools.png	Story template 1 frames, one per tool, as they are posted
2	Case study	highlight-case-study.png	Story template 2 updates + shares of P03, P07, P09, P13 and Reels 03–04
3	Story	highlight-story.png	Shares of P01, P05, P06 and Reel 01
4	How it works	highlight-how-it-works.png	Shares of the pinned set, P04, P12 and Reel 02
5	Enquire	highlight-enquire.png	Story template 3 with the WhatsApp link sticker + the website link sticker

Preview: `preview-highlights.png`. SVG sources sit next to the PNGs.

This set replaces the earlier kit set (Tools · Case study · Results · Enquire · FAQ) as you asked. "Results" comes back after 11 Nov, when there are real results to put in it.

How to set a cover: press and hold the highlight → Edit highlight → Edit cover → choose the PNG from the camera roll. A highlight needs at least one story, so day 0 and day 1 post one frame per highlight first (LAUNCH-CHECKLIST.md).

Story templates (`./`, 1080×1920)

All text sits between y 250 and y 1580 (outside the top 250 px and bottom 340 px). The lockup sits just above the bottom safe zone.

FILE	USE	STICKER TO ADD IN THE APP	WHERE TO PLACE IT
story-template-1-tool-of-the-day.png	One tool per frame (example: T-04 Social Media Publisher)	Link → https://system.zkjverse.com	Over the "All 13 tools" bar (y ≈ 1,240)
story-template-2-case-study-update.png	Case-study update (example: the starting point, audit 40/100, 587 views, 1,358 followers, 42 posts on 11 Oct)	Mention @kjvision.zkj	Under the source line (y ≈ 1,360)
story-template-3-ask-and-enquire.png	Question box + WhatsApp	Question box "Ask about the tools" · Link → https://wa.me/971541668700	Question box over the empty panel (y 760–1,230); link over the WhatsApp bar

To make a new frame from a template (e.g. tool T-06, or the 11 Nov numbers), edit `build/extras.py` (`story_tool`, `story_case`) and run `python3 build/extras.py`. Only real numbers from KJ VISION Insights go into template 2, and only after KJ approves them.

Stickers are added in the app at publish time: the scheduler APIs publish the frame, not the sticker.

6 · Reels

REELS/ · COVERS 01–04 + END CARD

KJ films and edits these himself (CapCut or Instagram Edits). Every reel: 9:16 · 1080×1920 · 13–18 s · no voice-over (text cards only, because most viewers watch muted) · music picked at upload from Instagram's **commercial** library (business accounts only get that library): calm electronic / ambient, 90–100 BPM, no named songs.

On-screen text style (from the kit): EN line Inter 600, 48–56 px, white; AR line IBM Plex Sans Arabic 600, 44–50 px, silver #C9CBCF, below the EN line. Centred, between y 1,100 and 1,500. Never in the top 250 px or bottom 340 px. Max 6 words per card. No emoji. Gold is only the ◆.

Cover: `reel-0n-cover.png` (title sits inside the centre 1080×1350 crop, so the grid tile reads). End card: `reel-end-card.png`, 2 s, on every reel.

Status of every reel: **draft — NEEDS MEDIA** until KJ records the clips below, then **awaiting approval** for the edited file.

---

0 · What KJ must record (one list for all four reels)

Record on the phone with **Do Not Disturb on**, notifications hidden, battery/clock bar cropped out later. Desktop recordings: browser in full screen, then crop to 9:16 in the editor. Name each file with its code.

CODE	WHAT TO RECORD	WHERE	LENGTH	USED IN	PRIVACY CHECK
SR-1	The website hero, slow scroll from the top: "Every project becomes a tool." → "14 AI tools. One living dashboard."	system.zkjverse.com on the phone	8 s	Reel 01	none
SR-2	The tools collection: scroll through the 14 tool cards	system.zkjverse.com → Tools	8 s	Reel 01	none
SR-3	The demo dashboard approvals queue: one item "Needs you" → tap **Approve** → the toast "Approved — scheduled"	system.zkjverse.com/dashboard.html	10 s, 2 takes	Reels 01, 02	Keep the **DEMO** label in frame; demo numbers are not results
SR-4	The demo dashboard calendar view, approved post sitting on its day	dashboard.html → calendar	5 s	Reel 02	DEMO label in frame

CODE	WHAT TO RECORD	WHERE	LENGTH	USED IN	PRIVACY CHECK
SR-5	The demo dashboard "Request changes" tap on a second item	dashboard.html → approvals	5 s	Reel 02	DEMO label in frame
SR-6	The KJ VISION audit dashboard: open on the score, then scroll the findings	CLIENTS/kj-vision/audit/2026-10-11-kjvision-zkj.verse-brand-audit.html (open locally)	10 s	Reel 03	KJ's own account only; no third-party DMs or emails in view
SR-7	The @kjvision.zkj profile grid after the relaunch, slow scroll	Instagram app	6 s	Reels 03, 04	Hide the notification bar
SR-8	The KJ VISION strategy dashboard: Overview → Calendar tab → shot list	CLIENTS/kj-vision/strategy/2026-10-strategy.html	12 s	Reel 04	none
SR-9	One KJ VISION reel with an Arabic text line playing on the phone (any of the 6 Arabic-text reels)	@kjvision.zkj	4 s	Reel 03	KJ's own content
KV-1	Dubai in motion, golden hour (KJ VISION shot A1, camera roll or new)	KJ VISION footage	3 s needed	Reels 01, 04	Already graded "KJ Obsidian"
KV-2	Dubai at night (KJ VISION shot A2 or B1)	KJ VISION footage	3 s needed	Reel 04	—
HQ	**Do not record.** Use the still `BRAND/ZKJ-SYSTEM/mother-hq/mother-hq-public.webp` with a slow 105 % push-in	file	3 s	Reel 01	Never screen-record the live Mother HQ; never use the original screenshot
IMG	Stills already in the kit: `CLIENTS/kj-vision/audit/audit-score.png`, `posts/en/zkjsystem-p07-en.png`	files	2 s each	Reel 03	—

Total recording time: about 45 minutes at a desk + KJ VISION clips that already exist.

Reel 01 · Every project becomes a tool

Item `zkjsystem-20261015-ig-reel-1` · **Thu 15 Oct 20:30** · 15 s · Pillar: The story & Mother HQ · EN + AR · Goal: follow + link tap

Cover `reels/reel-01-cover.png`

#	TIME	SOURCE	IN → OUT	SHOT	MOTION / CUT	ON-SCREEN TEXT EN / AR
1	0.0–1.8	KV-1	best 1.8 s	Dubai towers at golden hour, moving	hard cut on movement	We built tools to run our own brands. / بنينا أدوات تدير علاماتنا.
2	1.8–4.5	SR-1	0:00–0:03	Website hero	cut on scroll start	Every project became a tool. / كل مشروع أصبح أداة.
3	4.5–7.0	SR-2	0:02–0:05	Tool cards scrolling	speed 1.5×	14 of them. / 14 أداة.

6	13.5–15.0	text card on obsidian	—	"Results: 11 Nov."	cut	Results: 11 Nov. / النتائج: 11 نوفمبر.
7	15.0–17.0	End card	—	`reel-end-card.png`	fade	(on the card)

Source line burned in small at the bottom of shot 3 (above the bottom 340 px): "Source: KJ VISION audit, 11 Oct 2026 · n = 6". Caption: CAPTIONS.md → R3.

Reel 04 · A month planned by our own tools

Item `zkjsystem-20261106-ig-reel-1` · **Fri 6 Nov 20:30** (same day as KJ VISION's "planned with my own tools" reel) · 16 s · Pillar: Case study · EN + AR · Goal: follows + planning enquiries

Cover `reels/reel-04-cover.png`

#	TIME	SOURCE	IN → OUT	SHOT	MOTION / CUT	ON-SCREEN TEXT EN / AR
1	0.0–2.0	KV-2	best 2 s	Dubai at night	hard cut	One month of KJ VISION. / شهر من KJ VISION.
2	2.0–5.0	SR-8	Overview	Strategy dashboard	scroll	Planned by our own tools. / خطّطته أدواتنا.
3	5.0–8.0	SR-8	Calendar tab	30-day calendar	scroll	26 posts. 16 reels. One calendar. / 26 منشوراً. 16 ريل. تقويم واحد.
4	8.0–10.5	SR-8	Shot list	Shot list rows	scroll	Even the shot list. / حتى قائمة اللقطات.
5	10.5–12.5	KV-1	best 2 s	The shot that list produced	match-cut from the list row to the clip	The photographs stay KJ's. / الصور تبقى من تصوير KJ.
6	12.5–14.0	SR-7	1.5 s	The grid	scroll	Results on 11 Nov. / النتائج يوم 11 نوفمبر.
7	14.0–16.0	End card	—	`reel-end-card.png`	fade	(on the card)

Only post if KJ has approved the KJ VISION strategy (the numbers 26 / 16 come from it). Caption: CAPTIONS.md → R4.

Optional rough cut with ffmpeg

The content-studio recipe (team-skills … content-studio/references/reel-edit-plan.md, "Optional ffmpeg rough cut") works for these reels: one normalized segment per shot, the end card as a 2 s still, concat, then text cards as subtitles (libass shapes Arabic correctly; install IBM Plex Sans Arabic first). The Mother HQ still uses the zoompan line. Run it only if KJ asks; output to `launch/reels/renders/`.

Before each reel goes out

1. File is 1080×1920, 13–18 s, text inside the safe zone, end card present.
2. DEMO label visible in Reel 02; no private chats, emails or the live Mother HQ in any frame.
3. No employer or engineering project visible anywhere (desktop tabs, file names, bookmarks).
4. Cover uploaded from `reels/`, grid crop checked.
5. KJ approves the edited file (APPROVALS.md, new row with the file name), then it is scheduled in Metricool/Buffer.

7 · Launch checklist

Do these in order. Nothing is posted until step 4 is done. Publishing goes only through Metricool or Buffer (official Instagram API) or the Instagram app itself; never a bot or an unofficial tool.

The evening before (Mon 12 Oct, about 45 min)

This is also KJ VISION's re-sign day, so do the KJ VISION profile kit first (CLIENTS/kj-vision/profile-kit/SETUP-kjvision.zkj.md).

1. **Account type.** @zkjsystem is a Professional account (Business), category e.g. "Software company" or "Marketing agency". Contact options: email kj@zkjverse.com and WhatsApp +971 54 166 8700 (Edit profile → Contact options). **Do not change the bio**: it is already set and stays as is.
2. **Scheduler.** Connect @zkjsystem to Metricool or Buffer through the official Meta login (Instagram professional account linked to a Facebook Page if the tool asks). Choose one tool and tell Claude which, so the CSV can be mapped to its import template.
3. **Test every enquiry route** from a second phone or account:
4. system.zkjverse.com → WhatsApp button opens a chat with +971 54 166 8700.
5. The website form sends and the message arrives.
6. A DM to @zkjsystem arrives.
7. **Approve the day-0 items** in launch/APPROVALS.md: the launch plan, the pinned set, P01, the highlight covers and the story templates. Write "approved" with the date for each. Anything not approved does not go out.
8. **Upload and schedule** in the scheduler: the pinned set (3 slides, in order) for Tue 13 Oct 12:45 and P01 (EN slide, then AR slide) for 20:30, with the captions, hashtags and alt text from CAPTIONS.md. Check the preview in the scheduler: slide order, caption line breaks, Arabic shown correctly.

Day 0 · Tue 13 Oct

1. **09:00 · Profile check.** Profile picture = kit/social/profile-picture-1080.png, name "ZKJ SYSTEM · AI tools", link https://system.zkjverse.com, bio unchanged.
2. **09:15 · First stories, then highlights.** Post one story frame for each highlight (story templates 1, 2 and 3, plus the pinned-set slides for "How it works" and P01's slide for "Story"). Create the 5 highlights from them in this order: Tools · Case study · Story · How it works · Enquire, and set each cover from launch/highlights/.
3. **12:45 · The pinned set goes out** (scheduled). Within 5 minutes: open it → … → **Pin to your profile**. Share it to stories with a link sticker to https://system.zkjverse.com.
4. **12:45–13:15 · Stay on the app.** Reply to every comment and DM (same language as the person; anything commercial → "KJ will reply personally on WhatsApp +971 54 166 8700").
5. **From @kjvision.zkj (and @zkjverse if KJ wants):** one story frame mentioning @zkjsystem, e.g. "The tools behind this account now have their own home: @zkjsystem". Approve that frame first as a KJ VISION item.
6. **20:30 · P01 goes out** (scheduled). Share to stories within 10 minutes, then story template 3 with a question box. Stay 30 minutes for replies.
7. **23:00 · Write down the baseline** (LAUNCH-PLAN.md → KPIs): followers, following, posts, profile visits, link taps for @zkjsystem. Weekly reviews compare against these.

Day 1 – 2 (Wed 14 – Thu 15 Oct)

1. Record the clips for Reels 01–02 (reels/REEL-SCRIPTS.md → "What KJ must record"; about 45 minutes), edit Reel 01, send it for approval, and schedule it for Thu 15 Oct 20:30 once approved.
2. Schedule the rest of week 1 after approval: P02 (Sat 17 Oct 13:00) and P03 (Mon 19 Oct 20:30).
3. Every Monday from 19 Oct: the 15-minute weekly review (LAUNCH-PLAN.md → KPIs).

Never

- Post anything that is not `approved` in APPROVALS.md.
- Use the original Mother HQ screenshot or a live Mother HQ screen. Only mother-hq-public.webp.
- Name KJ's employer or any engineering project, in posts, replies, recordings or browser tabs.
- Post a result, testimonial or client name that is not real and approved.

8 · Approvals

Approver: **KJ** (owner). Only KJ's explicit "approved" on an item ID and version moves it to `approved`; only `approved` rows may be scheduled in Metricool/Buffer.

Approved by KJ — 12 Oct 2026 (in chat)

- Pinned set (3 slides) + caption — approved, post Tue 13 Oct 12:45 from the Instagram app → moved to Wed 14 Oct (KJ, 14 Oct: "start with what you have now"), Instagram app by hand
- P01 (EN + AR) + caption — approved, post Tue 13 Oct 20:30 from the Instagram app → moved to Wed 14 Oct 20:30, Instagram app by hand
- 5 highlight covers — approved
- Profile picture (cube) — approved

14 Oct 2026 — launch moved by one day

KJ had no time for Facebook / Metricool set-up: "start with what you have now". Launch is Instagram only, posted by hand from the app. Phone pack: `today-14-oct/`. Metricool and the other platforms come later; the rest of the calendar stays as planned.
